PROJECTS AND ACTIVITIES

4H Rabbit Showmanship — 2014 - 2019

I raised, and worked with various rabbits over a five year period. This involved me feeding, grooming, and handling rabbits with the goal of showing them in provincial exhibitions in mind. I had to show often in front of large numbers of people, where I won many awards based on how well I cared for my rabbit and listened to the judge during shows. 4H also has mandatory speeches every year that have pushed my competence in public speaking forwards.
